The circulation of the DAILY NEWS is steadily increasing and on Monday passed the 500 mark by a clear majority of 100. Monday's edition of the paper was exhausted fifteen minutes after the last form was off the press. 600 for a daily in a city the size of Daytona is a very creditable showing and is evidence that the public appreciate our efforts. It shall be our aim to build the circulation to a still higher figure and to accomplish this will make it better and better each day.

### Big Fish Caught in Halifax.

(Continued from First Page)

caught here, but during the past few days several large strings have been caught, and all records for big sheephead have been broken.

R. T. Pearson, of Alleghany, Pa., started in last week and caught an 8½ pound sheephead, the largest ever known landed here. Saturday, he got a 10 pound drum. Monday, a 9½ pound sheephead became a victim of this disciple of Sir Isaac Walton.

Yesterday, Capt. Wesley Johnson took Dr. G. E. Terrill, W. S. Judson, B. P. Foster, J. R. Seagraves, all of Cleveland, and C. M. Chaffee, of Columbus, on a fishing trip in his launch to Spruce creek. The party had splendid luck, catching a large number of fish, but Mr. Foster broke the record. This gentleman succeeded in landing a 12 pound sheephead, the largest to date of which there is a record.

### Accident to Cherokee.

About eighty visitors went down to the shell boat, Conrad's dock, this morning, intending to take the Tomoka trip aboard the popular steamer, Cherokee, but found that she had broken the sleeve of her electro and was unable to make the trip.

Messrs. Heath and Dickinson chartered the Grant Ferris and two other launches to carry their passengers on the trip, but found them inadequate to seat the crowd. They were unable to charter a fourth boat and, as a consequence, a few who intended to make the trip were left behind.

The Cherokee was repaired today and will be ready for her regular trip down the river tomorrow.

### Change in Express Agency.

V. O. McConnell arrived from Jacksonville yesterday and will be appointed as agent of the Southern Express Company, vice Frank H. Webber, resigned.

Mr. Webber has been agent here for about a year now, and during that time has made himself very popular with the majority of the patrons of the Express company by his courteous treatment of them and by the dispatch with which he has handled the greatly increased business. Mr. Webber will likely be appointed agent at Titusville, where he and his mother own a home.

The incoming agent, Mr. McConnell, is an old and reliable employee of the company and has had experience in much larger offices than this one. Mr. McConnell will be joined by his wife as soon as he gets settled here.

### King Carlos a Crack Shot.

King Carlos of Portugal is generally known to be a crack shot with the revolver, but most people have forgotten that he once won a prize at a competition after shooting off a tie with the best shots of this country and England. This feat he performed in 1886 at Wimbledon, England, his American competitor being Mr. Winans. The Englishman was Mr. Elliott. Carlos, then duke of Braganza, carried off the prize.

### Visions in Cactus.

A Mexican cactus is eaten by Indians during their religious ceremonies to induce visions. An English naturalist, Dr. Dixon, has been testing upon himself its extraordinary properties and reports that the air seemed filled with vague colors of perfumes, a halo of musical sounds surrounding him, and a marvelous display of ever changing, brilliant colors passed clearly before his vision.

### No Thoroughfare.

The Buffalo Commercial says that a neatly framed card bearing the inscription, "Low Bridge! C. A." is a significant warning now affixed of an evening to the doors of some of the most exclusive flats in Buffalo. It simply conveys in brief and more or less courteous language that the inmates are engaged at cards, and will the visitor please call again.

### A Child's Heirship.

The Duchess of Westminster's lady son is heir to an income of £700 a day, or £257,000 a year. His title during his father's lifetime is Earl Grosvenor, taken from the family name, and if he survives his father he will inherit 30,000 acres, including 600 acres of the most valuable land in the west end of London.
